Professional Summary

Artificial Intelligence and Machine Learning undergraduate with hands-on experience in Machine Learning, Java, Web Development, and Data Analysis. Skilled in developing predictive models, data preprocessing, and software development. Passionate about solving real-world problems using AI technologies and actively seeking internship opportunities to enhance technical and professional skills.

Education

Bachelor of Technology (Artificial Intelligence and Machine Learning) 2023 – 2027
St. Martin's Engineering College, Hyderabad
CGPA: **7.5**

Technical Skills

Programming Languages: Java, Python
Web Technologies: HTML, CSS, JavaScript
Machine Learning: Classification Models
Tools & Platforms: VS Code, Git, GitHub
Core Subjects: Data Structures, DBMS, Software Engineering, Computer Networks

Projects

SignPAL – Real-Time Sign Language Translation System

- Built an AI-based real-time sign language recognition system to reduce the communication gap between sign-language users and non-signers.
- Captured live webcam video and used MediaPipe to detect hand landmarks and extract gesture features.
- Trained a machine-learning model to classify predefined gestures and display the recognized sign through an interactive Streamlit interface.
- Designed the system to be extensible, allowing additional signs and gestures to be added in the future.

Internship Training

Java Internship – Niltech Edu Oct 2024

- Learned Object-Oriented Programming, Exception Handling, and File Handling concepts.
- Implemented Java programs and strengthened logical problem-solving skills.

Web Technologies Internship – ULS Technologies Mar 2024

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Gained practical exposure to front-end web development.

Certifications

- Java and Its Industry Applications – Niltech Edu (2024)
- Internship on Web Technologies – ULS Technologies (2024)
- Oracle Generative AI Certification

Achievements & Awards

- Advanced to the Final Round of **Quantanova Hackathon 2025**, competing among top teams and showcasing innovative solutions to real-world challenges.
- Participated in a Conference on **Face Mask Detection** (2024).
